REQUEST FOR CORRECTED NOTICE OF ACCEPTANCE AND FILING RECEIPT

Commissioner for Patents
PCT Legal (Facsimile 571 273-0459)
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

The above referenced case has a rather complex history. The original PCT International filing date was 5 February 1999, and the U.S. National Phase was filed under §371 on 3 August 2001. A Notice of Missing Requirements was mailed on 4 September 2001. A response containing the Missing Requirements was mailed on 4 December 2001 but the PCT/PTO stamp on the return postcard showed a date of 30 January 2002.

Thereafter no additional papers were received in the case so a Status Check was submitted on 14 April 2004. The undersigned attorney subsequently learned that the application became abandoned on 8 May 2004 because no response was made to an Office Action mailed on 8 December 2003. No reply was made because a processing error within the PTO attached an incorrect inventor name and attorney name to the case. Unfortunately, the firm that incorrectly received the Office Action did not have the courtesy to forward the Office Action to the undersigned. The application was subsequently revived, and in the Petition Grant (see attached) the Petition Attorney noted the data error and indicated it would be corrected.

REQUEST FOR CORRECTED NOTICE.

Submission dated 7-June-2007

Unfortunately, the error was not corrected. Instead the Office misplaced the case for two years. The case has been recovered and is now ready for a Notice of Allowance, but the inventor's name and the filing date still require correction. Additional investigation by the undersigned revealed that a Notice of Acceptance (copy attached) was mailed on 12 April 2002 apparently in response to our submission of 4 December 2001. However, the Notice of Acceptance, while listing the serial number of the present case, listed an incorrect inventor name (Wolfgang Werr) and an incorrect law firm (Baker & Botts). Presumably, Baker & Botts was handling a case for Wolfgang Werr but NOT this case. In addition, the Notice of Acceptance lists the Date of Receipt of 371(c) 1, 2 and 4 as 02 January 2002 and Date of Receipt of all requirements as 02 January 2002. Clearly, these dates are incorrect as the initial National Phase filing date for the instant application is 3 August 2001 and the Date of Receipt of all requirements should be the date that the missing parts were submitted (4 December 2001) or (perhaps) the date the package was actually received by the PTO. It is not reasonable to assume that the package was not received by the PTO until 30 January 2002.

In any case the undersigned attorney respectfully requests the PTO to correct the data and issue a corrected Notice of Acceptance and/or Filing Receipt so that the present case can proceed to issue. If for any reason the PCT Legal Division requires additional information, please call the undersigned attorney at the Los Angeles telephone number (310) 229-9928. You are hereby authorized to charge any fees due and refund any surplus fees to our Deposit Account No. 22-0261. Please reference matter number 58056-244181.

Respectfully submitted,

OFFICE OF PETITIONS

ON PETITION

In re Application of
Yuichi Murayama et al.
Application No. 09/890,799
Deposited: August 3, 2001
Attorney Docket No. 13054.02140

This is a decision on the petition filed August 19, 2004, under 37 CFR 1.137(a)¹, to revive the above-identified application.

The petition is **GRANTED**.

This application became abandoned March 9, 2004 for failure to timely respond to the non-Final Office Action mailed December 8, 2003. No requests for extensions were filed. This decision precedes the mailing of a Notice of Abandonment was mailed February 5, 2004.

Petitioner argues that the Notice mailed December 8, 2003 was not received until July 27, 2004 and points out that the address used for mailing the office action was incorrect.

A review of the file reveals that the petitioner is correct and it is noted that an error on the part of the USPTO caused the office action mailed to not be received by the applicant's representative. Thus, petitioner's delay in responding to the non-Final Office Action was unavoidable under the standard set out at 37 CFR 1.137(a).

It appears that the file with the instant application has been confused with the file of another application and that the correspondence address, the name of the inventor and other identifying information for this instant file have been transposed however, the files

¹ A grantable petition under 37 CFR 1.137(a) must be accompanied by:

- (1) the required reply, unless previously filed; In a nonprovisional application abandoned for failure to prosecute, the required reply may be met by the filing of a continuing application. In a nonprovisional utility or plant application filed on or after June 8, 1995, and abandoned for failure to prosecute, the required reply may also be met by the filing of a request for continued examination in compliance with § 1.114. In an application or patent, abandoned or lapsed for failure to pay the issue fee or any portion thereof, the required reply must be the payment of the issue fee or any outstanding balance thereof.
- (2) the petition fee as set forth in 37 CFR 1.17(l);
- (3) a showing to the satisfaction of the Commissioner that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(a) was unavoidable; and
- (4) any terminal disclaimer (and fee as set forth in 37 CFR 1.20(d)) required pursuant to 37 CFR 1.137(e)).

will be corrected and the agency apologizes for any inconvenience caused by its errors.

A message will be sent to Technology Center 1615 for both the correct file and that of the incorrect file to have the files reviewed for clarification of the record and for treatment of the amendment filed August 19, 2004 with the petition to revive. However, it should be noted that in order to correct the filing date, a petition under 37 CFR 1.53 will need to be filed with proof that all filing requirements were included with the file on August 3, 2001.

Telephone inquiries concerning this matter may be directed to the undersigned
